

A case of reuse of open public procurement data: Linking open data to monitor strategic objectives

Giovanni Paolo Sellitto

ANAC – the Italian National Anticorruption Authority

ANAC's mission and competences:

Anticorruption

Transparency

Public contracts

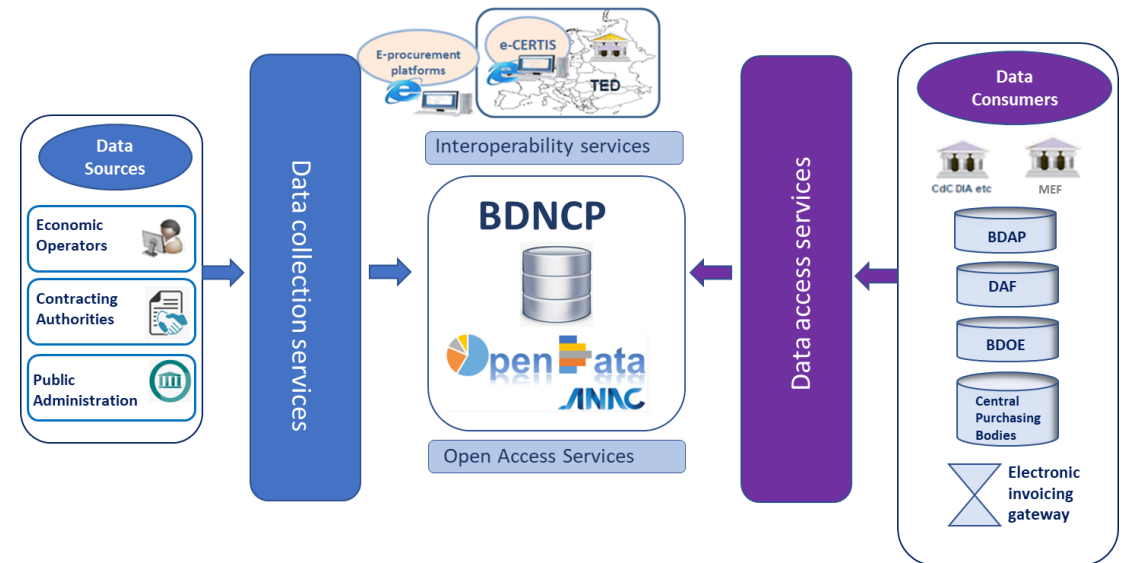

National Database of Public Contracts

<https://dati.anticorruzione.it/superset/dashboard/appalti/>

<https://dati.anticorruzione.it/opendata/>

- Over **70 million contracts** from 2007 to 2024
- **38,000 Contracting Authorities**
- **238,000 Companies**
- **380,000 active users**

- ✓ Over 30,000 economic operators Pre-Qualified for public works
- ✓ Over 650,000 certifications on the execution of public works

OpenGov Action Plan : linking ANAC's datasets with other Open Data

Action 5.02 (2022-2023):

'Open data and open standards for the inclusiveness and participation of civil society in the monitoring of public spending'

- ✓ empowerment of Civil Society Organizations
- ✓ inclusive and sustainable digital innovation
- ✓ Procurement Data linked with other data to monitor contracts financed by the RRF
- ✓ Open Spending and Citizens Engagement through open and transparent data

<https://open.gov.it/en/open-government/national-plan/5nap/action-5/commitment-502>

Example of Reuse: Monitoring the RRF spending

ONDATA, a Civil Society Organization provided an example of how to integrate existing data sources with ANAC's data for a bottom-up approach to PNRR monitoring

<https://vorrei.datibenecomune.it/>

<https://pnrr.datibenecomune.it/monitoraggio/>

RESOURCES:

ReGIS → monitoring and accounting of Italian projects funded by RRF

Portale Italia Domani (Ministry of Economy and Finances – Department of General State Accounting – Central Service for the PNRR);

OpenCUP public investment decisions financed with national, community or regional public funds or with private resources registered with the Single Project Code (Presidency of the Council of Ministers - DIPE);

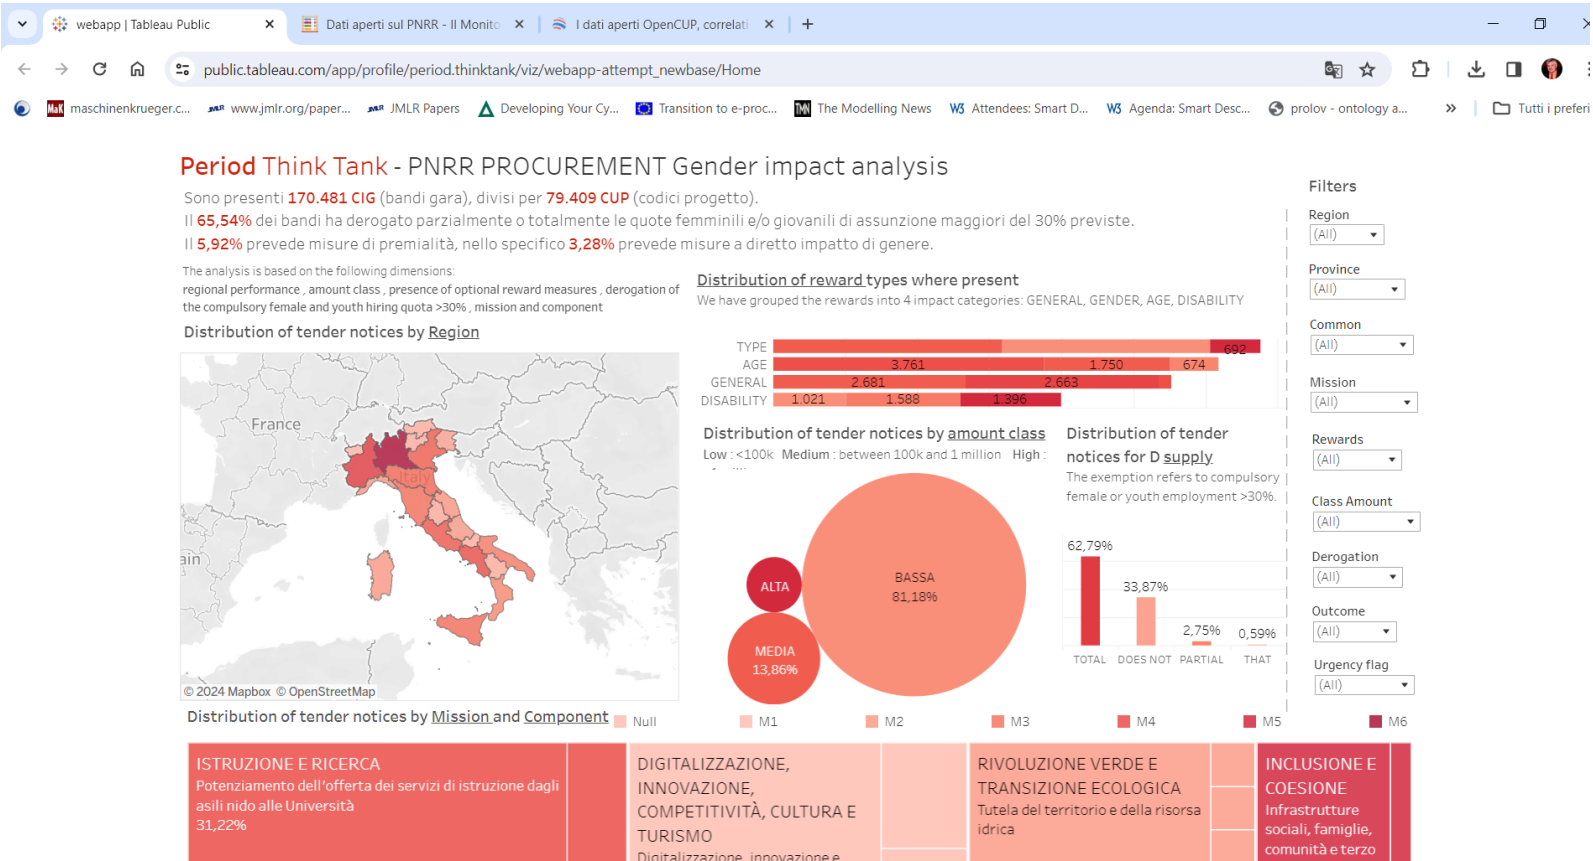

Catalogo dei dati aperti National Database of Public Contracts (BDNCP) (National Anti-Corruption Authority ANAC);

Banca dati Servizio Contratti Pubblici legal publicity portal for public procurement (Ministry of Infrastructure and Transport MIT);

OpenBDAP, “Public Works” section, monitoring public works (General State Accounting Office RGS/MEF).

Reuse Example 2: monitoring policy impact on strategic objectives

impact of procurement on gender and generational balance in companies
