(<sup>2</sup>) Date of Applicability:

— of the standard as a harmonised European standard according to article 4(2)(a) of Directive 89/106/EEC.

— of ETAs (issued in accordance with the relevant Guideline) according to article 4(2)(b) of Directive 89/106/EEC.

(<sup>3</sup>) The date of the end of the co-existence period is the same as the date of withdrawal of conflicting national technical specifications, after which presumption of conformity must be based upon harmonised European specifications. (harmonised standards or European Technical Approvals).

The translations of the titles given above have been provided by the relevant specification writer and represent the 'official' language versions.

#### Note:

Any information concerning the availability of the standards can be obtained either from the European standardisation organisations or from the national standardisation bodies. Any information concerning the availability of the ETA Guidelines can be obtained either from EOTA or from its members.

Publication of the references in the *Official Journal of the European Communities* does not imply that the harmonised technical specifications are available in all the Community languages.

Further harmonised technical specifications related to the Construction Products Directive have been published in previous editions of the *Official Journal of the European Communities*. A complete updated list can be found on the Europa server on the Internet at:
